

MAD PROFESSOR ELECTRIC BLUE II Chorus - Vibrato

ELECTRIC BLUE II - Chorus Vibrato is a super high quality, all analog modulation tool!

CHORUS mode is designed to deliver slow, traditional chorus effects and faster faux-leslie type effects and everything in between. Turning the SPEED control will also affect and alter multiple things, allowing Electric Blue II to sound just right and capture all the nuances, whether slower or faster swirls are being dialed in.

VIBRATO effect is completely and fully its own design. Well-thought-out controls and the ability to beautifully function with distorted tones will extend the sonic possibilities!
