

MAD PROFESSOR FIRE RED FUZZ

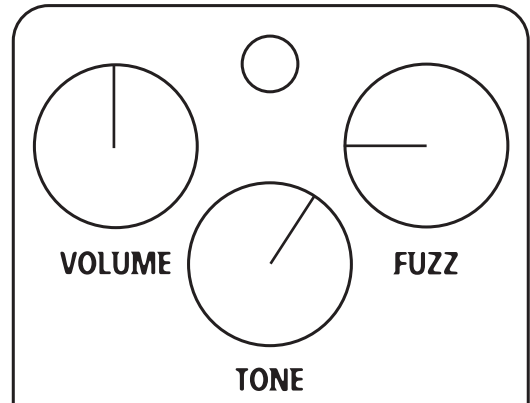

is a unique fuzz design with extreme versatility. Plenty of range in the Fuzz and Volume -controls and the Tone control was specifically designed to allow tones from mellow fuzz, through slight midcut to thin bright fuzz. Also the sound of FRF holds equal sustain throughout the fretboard.

Fire Red Fuzz is hand made in Finland using only premium components and it is small footprint like all Mad Professor pedals.

HERE ARE A COUPLE OF SETTINGS FOR YOU TO TRY:
